

Adroitec is a 'Gold Partner' of Oracle – Primavera Business Unit.

Primavera is internationally accepted as world leader in comprehensive project management solution.

Some of the major products are :

Primavera Enterprise P6 Project Portfolio Management: is a powerful robust and easy to use solution for planning, scheduling and monitoring projects. Some of the benefits are :

- Large scale project(s) can be managed
- Helps in selecting the right mix of projects
- Helps in balancing resources
- Monitor & visualize project performance versus plan

Primavera Contract Management : Helps in the documentation work relating to various contracts. It provides visibility to the contractors performance.

Primavera Risk Analysis : Helps in identifying critical areas, impact of delay of one activity on the other i.e., it works as combined PERT / CPM.

Cost Manager : Helps in identifying the cost incurred at any stage of the project, including the financial cost incurred out of own resources.

Primavera can be integrated with most of the ERP system or PLM i.e., engineering drawing / document management system.
